

REX MOORE TELECOMMUNICATIONS

REX MOORE TELECOMMUNICATIONS

Rex Moore's

expertise brings

to you what

no one else can:

Comprehensive

Telecommunications

Packages.

*ONE COMPANY,
COMPLETE
SOLUTIONS*

You depend on your telecommunications system for

accuracy and reliability. Yet, it is difficult to coordinate complex voice and data demands and maintain efficiency with multiple vendors. To this fragmented industry, Rex

Moore brings extensive solutions for your telecommunications system: from the speed and capacity of fiber optic cabling to the design, installation and maintenance of your phone system. Why deal with multiple vendors for your voice and data cabling, phone system, and other telecommunications needs? We will simplify your decisions, streamline your maintenance, provide emergency service, and minimize your costs as the singular resource for all of your telecommunications needs.

*YOUR NEEDS . . .
THE BLUEPRINT
FOR OUR DESIGN*

Rex Moore Telecommunications will listen to your needs and

customize a telecommunications system that is perfect for your company. Our Registered Communication Distribution Designers (RCDD) will customize your system to the smallest detail. Because the design process can often be difficult and overwhelming, you can depend on us to lead you through the vital planning stages and help you design every detail of your telecommunications system.
